

TRUST & SAFETY

# Trusted Intelligence to Protect Platforms, People, and Public Trust

For twenty years, Resolver's Trust & Safety division (formerly Crisp) has been the partner of choice for the world's most influential platforms. Our mission is simple: to help partner platforms identify, investigate, and mitigate online threats before they escalate into real harm.

We provide scalable, intelligence-led services that combine cutting-edge technology with expert-led human analysis, delivering the foresight, clarity, and speed your team needs to stay compliant, protect users, and safeguard reputation in an unpredictable online world.

## Why Platforms and Technology Services Trust Resolver

### Specialists in High-Severity Online Harms

We address the toughest content and behaviours on the internet, from misinformation and hate speech to child endangerment, violent extremism, suicide, and self-harm threats.

### Always-On Intelligence

Our global team of 180+ analysts operates 24/7/365, offering multilingual coverage and deep cultural insight across 50+ languages.

### Actionable, Zero-Day Threat Detection

We detect and alert on novel risks others miss — enabling early intervention before harm escalates or regulators intervene.

### Built for Trust & Safety Teams

Resolver is purpose-built for Trust & Safety leaders: flexible, investigative, and rooted in real-time operational needs.

## Our Services

Resolver delivers modular support across every layer of platform risk.

### Trust & Safety Intelligence

Investigative insights into adversarial behaviors, emerging harms, and regulatory blind spots across the web, dark web, and algorithmic environments.

### Security Intelligence

Threat intelligence focused on protecting people, locations, and operations from online-originated harm.
